Dear Presidents of the WGO Member Societies,

On behalf of WGO we are pleased to announce the next Train the Trainers workshop for 2018 in partnership with the Sudanese Society of Gastroenterology (SSG), the next TTT will be held in **Khartoum, Sudan from 18-21 April 2018**. We invite you to nominate two candidates who are fluent in English to attend this workshop.

The application process for this workshop is now open and we invite you to nominate your candidates now through **22 February 2018**. We are now accepting nominations electronically through this link: <https://www.surveymonkey.com/r/WGO2018TTT>

Please refer to the accompanying application requirements below for further details.

About the WGO Train the Trainers Program:

Developed by WGO in 2001, this workshop concentrates on expanding the educational skills of educators in the fields of gastroenterology, hepatology, endoscopy, and GI surgery, who are responsible for teaching, through the use of current educational techniques and philosophies. It brings together faculty and participants from across the globe in an intensive and interactive workshop, characterized by numerous hands-on sessions with ample opportunity for discussion. An ability to communicate proficiently in English is an essential component within the breakout sessions as well as contributes to the overall success of the workshop.

Please note that TTT workshops include the following modules:

- Adult Education
- Group Discussions
- Teaching Procedural Skills
- Professionalism
- Preparation of an Abstract
- e-Learning
- Evidence-based Medicine
- Critical Appraisal
- Publications
- Presentations
- Trial Design
- Assessment and Appraisal
- Credentialing
- Interpersonal Skills and Teamwork
- Writing Multiple Choice Questions

Participants are required to engage actively in all sessions and social functions; hence they are required to attend all workshop days. In addition to fully participating in the program, we require that participants commit to the completion of the pre-workshop questionnaire, on-site evaluation, and post-workshop evaluation. Their responses assist WGO in best meeting their expectations prior to the workshop commencement and also serve as data that WGO compiles to measure the impact of TTTs overall contribution to continuing education.

Thank you for your continuing interest in and support of our WGO programs. We look forward to receiving candidates from your society for next year's TTT workshop!

Sincerely,
